SUMMARY

Full Stack Developer specializing in React.js, Next.js, and Node.js built and deployed three production-style applications with real-time data (Supabase), authentication (Firebase), and REST APIs. Self-taught and project-driven, focused on clean architecture, performance, and responsive UI design.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js (SSR/SSG), Tailwind CSS, shadcn/ui, Framer Motion
Backend: Node.js, Express.js, REST APIs, JWT & OAuth Authentication
Database: MongoDB, PostgreSQL, Supabase, Firebase Firestore
Tools/Platforms: Git, GitHub, Postman, Vercel

PROJECTS

PollarBear – Real-time Polling App | *Next.js, Tailwind CSS, shadcn/ui, Supabase* [GitHub](#) | [Live Demo](#)

- Engineered a real-time polling platform using **Next.js** and **Supabase (PostgreSQL)**, enabling instant vote updates via live subscriptions without manual refresh.
- Designed and implemented RESTful backend APIs for poll creation, voting, and results aggregation, with **row-level security** to protect user data.
- Built advanced search, multi-filter, pagination, and category-based organization to efficiently handle a growing volume of polls.
- Crafted a responsive, accessible UI with **shadcn/ui** and **Tailwind CSS**; deployed on **Vercel** for production access.

Real Estate Web Application | *React.js, TypeScript, Tailwind CSS, Firebase, Framer Motion* [GitHub](#) | [Live Demo](#)

- Developed a full-stack real estate listing platform in **React.js** and **TypeScript** with dynamic property listings, search filters, and detailed property views.
- Implemented secure **Firebase** authentication (email + OAuth) with protected routes and persistent user sessions.
- Built a library of reusable, type-safe UI components, reducing duplicate code and speeding up feature development.
- Integrated **Framer Motion** for smooth micro-interactions and optimized asset loading to reduce initial page load time across devices.

Artistly – Artist Showcase Platform | *Next.js, Tailwind CSS, shadcn/ui, Framer Motion* [GitHub](#) | [Live Demo](#)

- Built a media-rich, SEO-optimized platform for discovering artists, singers, DJs, and creators using **Next.js** SSR/SSG for fast page loads and search visibility.
- Designed interactive, animation-driven profile pages with **Framer Motion** to boost user engagement.
- Architected a fully responsive layout with reusable, modular UI components built in **Tailwind CSS** for maintainable, scalable styling.

EXPERIENCE

Independent Full Stack Developer 2025 – Present

- Designed, built, and deployed 3 full-stack web applications end-to-end using **React.js**, **Next.js**, and **Node.js** — from architecture through production deployment.
- Implemented authentication, REST API integrations, and relational/NoSQL database design using Git-based version control and iterative development practices.

EDUCATION

St. Joseph College of Arts & Commerce, University of Mumbai 2022 – 2025
Bachelor of Commerce (B.Com) Virar, Maharashtra, India

- Self-taught Full Stack Developer — built practical, production-style projects independently alongside formal studies.*

CERTIFICATIONS

Next.js 14 & React – The Complete Guide (Udemy) | **Advanced CSS and Sass** (Udemy)
